

Southern Tasmanian Ski Association

2018 Summer Working Bee Focus

This summer there is a diverse program of maintenance activities to complete on the Mt Mawson Ski Field, as well as moving into the new STSA First Aid Room and Ticket Office. It is suggested that Working Bees be conducted on the third weekend of each month from January, except in April where the working bee will need to be a week earlier to avoid clashing with Easter, ie

Saturday 19th January – Sunday 20th January
Saturday 16th February – Sunday 17th February
Saturday 16th March – Sunday 17th March
Saturday 13th April – Sunday 14th April.

It might be a good idea to have a particular STSA Committee member (or an allocated club) to take the lead on specific activities. Some which come to mind are as follows:

MOVE INTO NEW FACILITY

- Install tow belt hangers in Ticket Office
- Move into and fit out Ski Patrol Room with cupboards and shelving
- Install gas heaters to Ticket Office and corridor
- Build and install seating and coat hooks in corridor
- Install telecommunications link and POS terminal
- Install signage, blinds?
- Fit-out downstairs store and garage
- Rubbish removal from existing belt issue hut

MAWSON and UNI TOW MAINTENANCE

- Splice and install new rope to Mawson tow
- Re-concrete foundation for Pole #1 on Mawson tow
- Service pulleys etc
- Conduct Tow Checks

RODWAY BUILDING REPAIR

- Repair damaged wall and floor of Rodway motor hut
- Replace damaged duckboards in loading area
- Service pulleys etc
- Conduct Tow Checks

SLOPE GROOMING MAWSON TOW

- Break up drilled protruding rocks with jackhammer
- Remove broken rocks from slope with wheelbarrow

SNOW FENCE IMPROVEMENT

- Construct new 3 panel snow fence at Pole 6 on Mawson run
- Construct new low fence near snow gum at lower section of Mawson
- Sundry snow fence repairs – eg on traverse to Uni
- Remove pales from top fence on Mawson to increase slot aperture
